

REUSABLE RESTRAINT FOR SECURING ARTICLES
FOR SHIPPING AND/OR STORAGE

ABSTRACT OF THE INVENTION

5 A restraint for packaging glass sheets includes a
first leg and a second leg, each leg having an inner surface
configured to contact at least a portion of the glass sheets
and an outer surface. The first and second legs define a
vertex. The inner surfaces are made at least partly of a
10 compressible material and the outer surfaces are made at least
partly of a material having a hardness greater than that of
the compressible material.
